

Name:

Bluebird Eggs in Nestbox Chart

Sebbie's class put up a bluebird nestbox trail around the school last fall. Now it is spring. The birds are nesting in them! The class is counting how many eggs are in each nestbox. Chart the number of eggs in the box by filling in the ovals. Use the information to answer the questions.

Sebbie's nestbox has 4 eggs
Olivia's nestbox has 3 eggs
Hunter's nestbox has 4 eggs

Cadence's nestbox has 1 egg
Bella's nestbox has 2 eggs
Liam's nestbox has 5 eggs

1. Whose nestbox has the most eggs?
2. Which student's nestbox had the least number of eggs?
3. What is the difference between the nestbox with the most eggs and the one with the least?
4. Whose boxes had the same number of eggs?
5. Form a hypothesis – Which nestbox will yield the most healthy chicks?
